

Recyclables/Trash Disposal Chart

SHIMANE-KEN ODA-SHI

Oda City Hall: 0854-83-8101
o-kouryu@city.oda.lg.jp

- Keep the following time regulation to take your trash to the collection site, otherwise they won't be collected; By 8:00am for incombustible trash, and by 8:30am for combustible trash.
- Make sure to write your name on trash bags before disposing them in a trashcan at the collection site.

COMBUSTIBLE - 2 TIMES A WEEK UNTIL 08:30 AM

※Any trash that doesn't fit in the specific bag should be taken to the sanitation plant on your own.

Food Waste: Drain the water before

Papers, Books, Magazines, Snack Box and Catalogs

Soft plastic: Gloves, plastic bags without PURA

No dirt on grass or fallen leaves. Trimmed branches (5cm or smaller diameter) should fit in the bag.

Clod of earth: Just put back to the nature

Clothes which may not be recyclable are cut into about 50cm long. Shoes (such as safety shoes, lady's heeled shoes) or metal attached bags are "Incombustible".

Long materials such as codes or rubber hoses should be cut into about 50cm long.

Bed Clothes, Pillow, Stuffed Animals, Cushion

Waste such as feces should be removed from used diapers.

Large materials including carpets and drapes should be cut into about 50cm square.

Futon mattresses and blankets not applied to recycling should be bundled up crosswise.

Wash before

Incombustible - 2 times a month - until 08:00AM

Aluminum/steel cans including beverages, sweets, meat, baby milk, sprays (except insect sprays or paint), and gas for a portable cooking stove, etc.

Used dry battery cells including alkaline, manganese, lithium or coin battery cells

Ceramics: Dishes, Glass, Cups, Metals, Hard plastics, Umbrella

CD, MD, Bucket, Toys, Toothbrush

OBS: Spray cans and other gas cans should be fully consumed, then discharged the remaining gas by pricking them where non-flammable substances exist.

Electric carpets/blankets, etc

Ashes should be wrapped in wet paper to be disposed in the specified bag on which you write the Japanese, "HAI" (means ashes).

Saque / beers / milk bottles
Rinse the inside.

Rechargeable cells should return to retail stores.

Broken ceramics, glasses or knives should be wrapped in paper to be disposed in the specified bag on which you write the following Japanese, "KIKEN" (means "Dangerous").

Mercury thermometer / Broken or digital ones → "Incombustible"

Any transparent bag is accepted as long as the inside is visible.

Japanese rice pan, Toaster, Blender, Radio, Lamps, Electric blankets, Hair Dryer, Shaver, Hair chap, Electric toothbrush etc. If it fits in the bag, if not it should be considered: BIG TRASH

Plastics - 2 times a month - until 08:00AM

Any plastic container from which stains or odor cannot be removed should be "Combustible".

Plastic bottles with the following symbol PURA

•Rinse the inside.

Soy sauce, Vinegar, Drinks, Food, Shampoo, Cosmetics, Countainer of Lamens / Eggs countainer / Spice food countainer / Bento box, Snack plastics / Tangerine countainer / Fruit countainer, Shopping ans supermarket bags with PURA symbol, Bottle caps, Styrofoam, Packaging plastic with PURA symbol

The product should be fully consumed, then wipe or rinse the inside. Those cap covers with the plastic symbol should be even removed from containers and disposed into the specified bag.

Double plastic bags are not allowed.
※You may leave paper labels such as price tags attached to them.

Soft plastics and plastics without PURA symbol are "Combustible".

Thank you!

Objects recycled by supermarkets:

Bento box, Tin can, Papers, Magazines, Cardboard, Milk box - Just take them to the Recycled area in the supermarket (Normally in the entrance)
